

## Instructions: Piggy Finger Puppets

*Note: You have enough pieces to make two piggies.  
Colors may be mixed/matched as you'd like.*

---

1. Glue piggy nose on (this can also be stitched using running stitch for those who can do tiny stitches; this can be difficult for young children).

- 
2. Using a pen or marker, draw eyes/nostrils on pigs.

- 
3. Pin pieces together, making sure that ears are pinned in place between front/back pieces.
-

4. Beginning in lower left corner, stitch around the pieces, ending at bottom right corner and leaving bottom open. This can be done using either a blanket stitch or running stitch; a running stitch should be used in the ear area (your child may need your help with this).

- 
5. Tie a sturdy knot, and cut thread. Enjoy!
